

PROPOSAL DATA ITEM DESCRIPTION (PDID)

**PDID-PBOM
PRICED BILL OF MATERIAL**

The purpose of this PDID is to obtain from the Offeror information which will help the Buyer better understand and analyze the Offeror's proposal.

INSTRUCTIONS:

1. Provide a priced bill of material, detailed to the lowest level of material which would either be procured or manufactured by your company in the performance of work contemplated by this solicitation.
2. Exhibits 1 and 2 reflect two methods of presenting the required information. Both methods include an indented bill of material identifying the quantity, type and cost of material to the base component level. The information is then summarized to present the combined quantities of identical base components such that the total value of the bill is equal to the total of all material included in the proposed contract price.

DEFINITIONS OF EXHIBIT 1 AND 2 NOTES:

<u>NOTE</u>	<u>LEVEL</u>	<u>NOMENCLATURE</u>	<u>HOW DERIVED</u>
A	4	Component	Total required to satisfy one Sub-Assembly
B	3	Sub-Assembly	Total required to satisfy one Assembly
C	2	Assembly	Total required to satisfy Contract quantity
D	1	Top Level (Contract)	Total Contract quantity
E	4	Total Components	Total required to satisfy Contract requirements
