

PROPOSAL DATA ITEM DESCRIPTION (PDID)

PDID-TSSP SYSTEM SAFETY

A description of the Offeror's system safety approach and methods to accomplish a system safety program shall be included in the Offeror's technical proposal. The description shall include the information contained in the following instructions.

INSTRUCTIONS:

1. Include a description of your proposed methods of assessment of system safety.
2. Describe your approach to integrating system safety into the design of the product.
3. Identify the area within the Offeror's organization that will implement the system safety program. Describe its functional interrelationship within the Offeror's overall organization.
