EMPLOYEE REFERRAL PROGRAM

PURPOSE

The purpose of this standard procedure is to establish Company guidelines for an Employee Referral Program.

GENERAL

The Company places great importance on referrals and the intent of this procedure and the guidelines established herein is to encourage referrals from current employees. Good employees know other good employees. We want to create a process that will encourage all of us to act as talent ambassadors for the Company.

This program is designed to help source top talent, build diversity, find candidates for hard-to-fill positions, decrease cost per hire, and decrease turnover. To encourage employees to refer new talent for positions at the Company, the referring employee will receive \$250 less applicable taxes and withholdings, after the referred new hire remains employed by the Company as set out in Section 2.0 below.

The Company reserves the right to modify, suspend, or cancel this program at any time but will do so only after advanced notice to meet and confer with the bargaining units.

Participating bargaining units can opt out of this program with a 5-day written notice to the Company.
